

十字槽盘头自钻螺钉

材质

碳钢镀锌系列，不锈钢系列

总体特征

- 直接拧入，无需预钻孔。
- 安装过程中，能保持螺丝刀平稳，减少滑倒或滑动的可能性。

CROSS RECESS PAN HEAD SELF-DRILLING SCREWS

Material

Carbon steel galvanized, stainless steel

General Features

- Direct screwdriving without pre-drilling.
- Keep screwdriver stable, reducing the possibility of slipping or sliding during installation.

HIGH PERFORMANCE SCREWS

您身边的门窗紧固专家!
Always beside you in your fixing world!

上海窗固紧固件制造有限公司

SHANGHAI CHUANGGU FASTENER MANUFACTURING CO., LTD.

中国上海市金山区亭卫公路3566号

No.3566 Tingwei Road Jinshan District of Shanghai, China.

HIGH PERFORMANCE SCREWS

优质门窗紧固件

十字槽沉头自钻螺钉

材质

碳钢镀锌系列，不锈钢系列

总体特征

- 直接拧入，无需预钻孔。
- 将载荷均匀地分布在表面上，提高了整体结构的完整性。

CROSS RECESS COUNTERSUNK HEAD SELF DRILLING SCREW

Material

Carbon steel galvanized, stainless steel

General Features

- Direct screwdriving without pre-drilling.
- Distribute the load evenly across the surface, enhancing the overall structural integrity.

CHG 窗固紧固件

十字槽沉头粗牙割尾木螺钉

材质
碳钢镀锌系列，不锈钢系列

总体特征

- 螺钉完全嵌入木材，最大限度地减少螺钉突出造成的伤害，确保紧密连接。
- 牙设计可以更好地穿透木材，提供更强有力的固定，避免螺钉松动或滑落。
- 割尾设计使得螺钉不会被压碎或损坏木材结构，从而提高了连接的强度和稳定性。

CROSS RECESS COUNTERSUNK HEAD COARSE THREAD CUT TAIL WOOD SCREW

Material:
Carbon steel galvanized, stainless steel

General Features:

- The screws is fully embedded in the wood, minimizing injuries caused by protruding screws and ensuring a tight joint.
- Coarse thread design can facilitate the penetrating and provide a stronger fixing, avoiding the screws from loosening or slipping out.
- The cut tail design allows the screwdriving without crushing or damaging the wood's fibers, thus improving the strength and stability of connection.

金属窗式胀栓

材质
碳钢镀锌系列，不锈钢系列

总体特征

- 适用于重型、大型窗框安装。
- 以强大的附着点来抵抗人为破坏和强行拧入，提高整体安全性。

METAL WINDOW EXPANSION ANCHOR

Material
Carbon steel galvanized, stainless steel

General Features

- Suitable for heavy and large window frame installation.
- Providing strong attachment point that resists tampering and forced entry, enhancing the overall security.

尼龙窗式胀栓

材质
尼龙套管，碳钢或不锈钢螺丝

总体特征

- 尼龙材质具有良好的抗腐蚀性，绝缘性能以及减震性。
- 价格相对较低，性价比高。

NYLON WINDOW EXPANSION ANCHOR

Material
Nylon sleeve, carbon steel or stainless steel screws

General Features

- Nylon has good corrosion resistance, insulation property and shock-absorption performance.
- Relatively low price, economical.

梅花圆柱头水泥螺纹锚栓

梅花圆柱头带边水泥螺纹锚栓

梅花沉头水泥螺纹锚栓

水泥螺纹锚栓

材质
碳钢镀锌系列，不锈钢系列

总体特征

- 水泥螺纹锚栓强度高，能够牢固地固定物体。
- 价格相对较低，性价比高。
- 方便退出，可纠错性好。
- 螺纹连接，不会对墙体产生压迫而导致开裂。
- 具有更好的抗拉抗剪性能。

CONCRETE SCREW ANCHOR

Material
Carbon steel galvanized, stainless steel

General Features

- Able to securely hold objects with high strength.
- Relatively low price, economical.
- Can be pulled out after wrong screwdriving, better error-correcting performance.
- Threaded connection, will not produce pressure on the wall and cause cracking.
- Better tensile and anti-shearing properties.
